ABSTRACT

Statistical data and summary information concerning the University System of Georgia for 1985-1986 are presented. Data are provided on students, academic programs, faculty and staff, finance, facilities, and research and service. Information is included on: headcount and full-time equivalent (FTE) enrollment; enrollment by class, ethnic group, gender, part-time/full-time status, high school graduation and birth rates; geographic origin of students, student financial aid, admissions standards; quarter credit hours generated by division; certificates and degrees conferred by discipline and level; number of library additions and holdings; full-time faculty by instructional rank; tenure status of full-time faculty; demographic characteristics of full-time faculty; revenues and expenditures for current operations and plant; educational and general revenues and expenditures; cost per FTE student by function; student costs; buildings and land holdings; student housing capacity; classroom use for selected hours; institutes and centers; contracts and grants received by type of college; and continuing education activities. A brief history of the university system and general information are included, along with a list of system publications. (SW)

OFFICE OF THE CHANCELLOR

March 1986

Dear Colleague:

The University System of Georgia is a large, comprehensive system of public higher education charged with providing instruction, conducting research, and performing service for the people of Georgia. In addition, it has an outreach program which extends to every state in the nation and to many countries of the world. It is one of Georgia's precious resources and a source of pride to its citizens.

This Information Digest brings together between the covers of a slender volume a collection of facts and statistical data designed to increase your knowledge and enhance your understanding of the University System. The choice of material has been dictated in large part by the questions which are most frequently asked of us in the Central Office of the Board of Regents. I hope you will find the Information Digest to be both interesting and valuable.

Sincerely,

H. Dean Propst

PREFACE AND ACKNOWLEDGEMENTS

This is the second edition of the University System of Georgia Information Digest, the first representing 1983-84. For the most part this edition provides updated information presented in the first edition. However, users should consult the first edition for some items that were intended for one time publication only and, thus, are not included in this edition.

The purpose of the document is to provide reliable statistical data and summary information concerning the various activities of the University System. The information included herein was selected on the basis of the most frequently asked questions about the System and its 33 institutions. Users needing more specific information are directed to the original data sources cited on each page. In most cases the data and information were summarized from existing publications. The contents and accuracy of translation from the original documents are the sole responsibility of the co-editors.

Appreciation is expressed to persons on the Central Office staff who provided assistance in their respective areas; to the Regents Information Systems personnel who prepared special analyses as needed; and to the staff persons at the University of Georgia, Georgia Institute of Technology, Georgia State University, Medical College of Georgia, Kennesaw College, Georgia Southern College, and Clayton Junior College who served as members of the advisory group and provided special assistance including photographs, graphics, and typesetting.

We are especially appreciative of the contribution of Susan Whitman who provided data entry and has assumed more responsibility for the contents; to Kay Miller and Vickie Fair who provided publication technical assistance; and to Curtis Spikes who produced the computer graphics.

Comments and suggestions for improvement of future issues are sincerely solicited.

The University System of Georgia is an equal education/employment opportunity organization.

HIGHLIGHTS

The BOARD OF REGENTS OF THE UNIVERSITY SYSTEM OF GEORGIA is a constitutional board with the authority to govern, control, and manage public higher education in the State.

INSTITUTIONS

★ 33 institutions which are strategically located throughout the State so that 98 percent of the State's population is within the service area of a public higher education institution

4 Universities (3 residential, 1 non-residential)
14 Senior Colleges (10 residential, 4 non-residential)
15 Junior Colleges (4 residential, 11 non-residential)

★ Uniform Calendar - all institutions operate on the quarter calendar

STUDENTS

★ 135,964 students enrolled in Fall 1985
- Full-time (67%)
- Female (53%)
- Blacks (15%)
- Georgia Residents (88%)

★ From all 159 Georgia counties and all 50 states

ACADEMIC AFFAIRS

★ 23,749 degrees and certificates awarded in FY1984-85

249 Certificates
3,408 Associates
13,662 Bachelors
4,543 Masters
612 Specialist in Education
736 Professional
539 Doctorates

★ Library holdings of 8.9 million book stock volumes on June 30, 1985

FACULTY/STAFF

★ 7,046 persons with faculty rank on December 1, 1985:
62.2% tenured; 34.6% on tenure track
69.7% with doctorate or first-professional degree

★ 25,463 full-time employees during October 1985

BUDGET

★ $1.2 billion budget for FY1986
$629.9 million received in state appropriations in FY1985; $681.4 million in FY1986

FACILITIES

★ 2,171 buildings with replacement value of $2.6 billion
★ 50,877 acres of land
★ State appropriation of $21.1 million received for capital outlay projects in FY1985

RESEARCH/SERVICE

★ $167.5 million received in grants and contracts at principal research universities in FY1985; $12.5 million received at senior colleges

★ 455,336 participants in organized continuing education programs in FY1985; 12,143 programs presented

General Information

BRIEF HISTORY OF THE UNIVERSITY SYSTEM OF GEORGIA

The beginnings of public higher education in the State can be traced to 1784 when the General Assembly set aside 40,000 acres of land for the endowment of "a college or seminary of learning." During the following year, a charter was granted for establishment of the University of Georgia. The State later provided appropriations for establishing the following branches: School of Technology in Atlanta, 1885 (now Georgia Tech); Georgia Normal and Industrial College for Girls, Milledgeville, 1889 (now Georgia College); Georgia State Industrial College for Colored Youths, Savannah, 1890 (now Savannah State College); and the South Georgia Normal School, Valdosta, 1906 (now Valdosta State College). Later, the legislature established an agricultural and mechanical arts (A&M) school in each congressional district. During this period, higher education was uncoordinated, underfinanced, and generally in chaotic condition.

In 1929, Governor L. G. Hardman established a committee which was charged with recommending alterations to the condition. The most significant idea was the creation of a central governing board. On August 28, 1931, the Reorganization Act was signed which created the Board of Regents of the University System of Georgia. The Act called for the governor to appoint eleven members, one from each congressional district, and one at large.

In its January 1932 meeting, the Board adopted the following Statement of Plan:

> It is the conviction of the Board of Regents that the people of Georgia intended to ordain by the Act creating the Board that the twenty-six institutions comprising the University System should no longer function as separate, independent, and unrelated entities competing with each other for patronage and financial support.
>
> The manifest purpose of the Act creating the Board of Regents is to unify and coordinate the work of these institutions so that the educational program of each shall be integrated with that of every other institution and with the system as a whole. The result aimed at is a correlated, harmonious, and symmetrical structure free from wasteful duplications, but providing the maximum of educational opportunity to the students of the State. In short, the emphasis has been shifted from the interests of particular institutions to the interests of the State.
>
> While the traditions, the welfare and the prestige of the several branches of the system will be an object of care on the part of the Board, all of their problems are to be finally resolved by the answer to the question: What will best serve the educational interests of the State as a whole?
>
> With this as the paramount consideration, the constant aim of this body will be to establish and maintain a system of higher education that will command the sympathy and support of our educational leaders, and at the same time successfully meet our needs by offering the young men and women of Georgia the maximum of education.
>
> To accomplish this result, the Regents will, after careful study, take such steps that to them seem best to coordinate and unify these institutions so that they will be related in purpose and regulated in scope. The only competition in which these schools will hereafter engage will be for preeminence in service and scholarship.

The Reorganization Act of 1931 transferred to the new Board the responsibility for 26 institutions. The Board began immediate reorganization by abolishing the A&M schools and two additional schools and creating two new institutions. The net result was that the System was reduced to 18 institutions. The earliest recorded enrollment was 8,035 in Fall 1933. The System was appropriated $1,900,500 by the State for 1932-33 but received only $1,624,928. In 1941, the Southern Association of Colleges and Schools withdrew the accreditation of 10 University System institutions because of irregularities and incidences of outside interference into academic activities at the institutions. In 1943, newly-elected Governor Ellis Arnall sponsored a Constitutional amendment to remove such interference by making the Board a Constitutional body. The amendment was overwhelmingly approved by the voters.

The principles enumerated in the 1932 policy statement have guided the development of a unified system. Today the Board continues to have Constitutional authority to govern, control, and manage the University System, as reaffirmed in the approval of the new State Constitution in 1982. These powers include the authority for program approval or discontinuance, internal reallocation of the budget, facilities construction, and decisions concerning adding new institutions, upgrading or downgrading the level of an institution, or closure or merger of institutions.

The University System is currently composed of 33 institutions (4 university level institutions, 14 senior colleges, 15 junior colleges). In addition, four of the junior colleges maintain a postsecondary vocational- technical unit in cooperation with the State Board of Education.

BOARD OF REGENTS

The Board of Regents is composed of 15 members: five from the state-at-large and one from each of the ten congressional districts. Members are appointed by the Governor and confirmed by the Senate. They serve seven year terms of office. The Board meets monthly at the Regents office in Atlanta but occasionally at System institutions and special retreats.

MEMBERSHIP OF THE BOARD

REGENT	RESIDENCE	DISTRICT	TERM
John H. Anderson, Jr.	Hawkinsville	State-at-large	1983-1990
Marie W. Dodd	Atlanta	State-at-large	1981-1988
Carolyn D. Yancey	Atlanta	State-at-large	1985-1992
Joseph D. Greene	Thomson	State-at-large	1984-1991
John E. Skandalakis	Atlanta	State-at-large	1981-1988
Arthur M. Gignilliat, Jr.	Savannah	First	1983-1990
William T. Divine, Jr.	Albany	Second	1982-1989
John H. Robinson, III	Americus	Third	1979-1986
Jackie M. Ward	Atlanta	Fourth	1984-1991
Elridge W. McMillan	Atlanta	Fifth	1982-1989
Edgar L. Rhodes	Bremen	Sixth	1985-1992
Lloyd L. Summer, Jr.	Rome	Seventh	1980-1987
Thomas H. Frier, Sr.	Douglas	Eighth	1985-1992
Sidney O. Smith, Jr.	Gainesville	Ninth	1980-1987
John W. Robinson, Jr.	Winder	Tenth	1986-1993

OFFICERS OF THE BOARD, 1985-86

Arthur M. Gignilliat, Jr.	Chairman
Elridge W. McMillan	Vice Chairman
H. Dean Propst	Chancellor
(Vacant)	Executive Vice Chancellor
Henry G. Neal	Executive Secretary
Jacob H. Wamsley	Treasurer

All officers are elected for one-year terms beginning on July 1, except for the Chancellor who serves at the pleasure of the Board.

STANDING AND SPECIAL COMMITTEES OF THE BOARD OF REGENTS

Executive Committee	Organization and Law
Buildings and Grounds	Private College Liaison
Desegregation	Research and Extension
Education	Student Affairs
Finance and Business Operations	Visitation
Health Professions	Liaison to the State Board of Education

Regents Special Committee on DeKalb Community College

The Chairman has the authority to appoint both committee chairmen and membership. Each committee is charged with studying the problems in the field assigned to it and making recommendations to the Board concerning policies and activities. Special committees may also be authorized by the Board as needed.

UNIVERSITY SYSTEM ADVISORY COUNCIL

The University System Advisory Council has the power to make recommendations to the Chancellor and through him to the Board of Regents regarding educational and administrative matters of concern to the University System. Membership is composed of the Chancellor, the Executive Vice Chancellor, and the presidents of the 33 institutions. The Advisory Council has both academic and administrative committees which formulate recommendations to be presented to the Advisory Council for consideration. Those matters originating with academic committees are first considered by the Administrative Committee on Academic Affairs prior to consideration by the Advisory Council. Membership on academic committees is limited to one representative per institution offering work in the field with which the committee is concerned. Administrative committees are of two types: those in which representation consists of one representative from each institution and those with selective representation which are appointed by the Chancellor for the study of a restricted area of concern.

Academic Committees

Biological Sciences
Business Administration, Management, and Economics
Chemistry
Computer Science and Systems Analysis
Criminal Justice
Developmental Studies
English
Fine and Applied Arts
Foreign Languages
Geological Sciences and Geography
Health Professions
History
Home Economics
Libraries
Mathematical Subjects
Physical Education, Health Education, and Recreation
Physics
Political Science
Psychology
Sociology, Anthropology, and Social Work
Teacher Education

Administrative Committees

Academic Affairs
Fiscal Affairs
Graduate Work
Institutional Public Relations and Information Services
Institutional Research and Planning
Public Service/Continuing Education
Records and Admissions
Student Affairs
Transfer of Credit

UNIVERSITY SYSTEM STUDENT ADVISORY COUNCIL

The purpose of the Student Advisory Council (S.A.C.) is to provide a forum for communication and recommendation between students enrolled in University System institutions and the Chancellor, the Board of Regents, state government, and the public, concerning problems and issues in student-related areas. The S.A.C. also functions to promote better student government in System institutions. The S.A.C. meets five times a year and works closely with an advisor from the Chancellor's staff as well as the Chancellor. The Council also meets annually with the Board to present a report of its activities and recommendations.

Sources: Policy Manual; Statutes and Bylaws of the University System Advisory Council; Statutes of the University System of Georgia Student Advisory Council; Office of Vice Chancellor for Academic Affairs

The Chancellor is elected by the Board and serves at the pleasure of the Board as the chief executive officer of the Board and the chief administrative officer of the University System. The Executive Vice Chancellor is elected by the Board upon recommendation by the Chancellor. He/she serves in absence of the Chancellor and is responsible for the day-to-day activities of the Central Office staff.

CURRENT STAFF, MARCH 1986

POSITION	STAFF MEMBER
Chancellor	H. Dean Propst
Executive Secretary	Henry G. Neal
Vice Chancellor - Academic Affairs	W. Ray Cleere
Vice Chancellor - Facilities	Frederick O. Branch
Vice Chancellor - Fiscal Affairs and Treasurer	Jacob H. Wamsley
Vice Chancellor - Research and Planning	Haskin R. Pounds
Vice Chancellor - Services	Howard Jordan, Jr.
Vice Chancellor - Student Services	Thomas F. McDonald
Assistant Vice Chancellor - Academic Affairs	Anne Flowers
Assistant Vice Chancellor - Academic Affairs	Joseph H. Silver (7/1/86)
Assistant Vice Chancellor - Academic Affairs	David M. Morgan (4/1/86)
Assistant Vice Chancellor - Affirmative Action	Mary Ann Hickman
Assistant Vice Chancellor - Computing Systems	James L. Carmon
Assistant Vice Chancellor - Facilities	H. Guy Jenkins, Jr.
Assistant Vice Chancellor - Facilities	Thomas E. Mann
Assistant Vice Chancellor - Fiscal Affairs/Personnel	T. Don Davis
Assistant Vice Chancellor - Fiscal Affairs/Accounting Systems and Procedures	Gordon M. Funk
Assistant Vice Chancellor - Fiscal Affairs/Budgets	C. Roger Mosshart
Assistant Vice Chancellor - Planning	Wanda K. Cheek
Assistant Vice Chancellor - Research	W. Curtis Spikes
Executive Assistant to Chancellor - Legislative Relations	Thomas E. Daniel
Assistant to Chancellor - Public Relations and Information Services	Kay Miller

CHANCELLORS, 1932 - PRESENT

Charles M. Snelling -- January 1, 1932 - May 12-13, 1933
Philip Weltner -- May 12-13, 1933 - June 30, 1935
S. V. Sanford -- July 1, 1935 - September 12, 1945
Raymond R. Paty -- October 9, 1946 - December 31, 1948
Harmon W. Caldwell -- January 1, 1949 - June 30, 1964
George L. Simpson, Jr. -- July 15, 1965 - June 4, 1979
Vernon Crawford -- May 20, 1980 - June 30, 1985
H. Dean Propst -- July 1, 1985 - Present

Acting Chancellors

Marion Smith -- September 12, 1945 - October 8, 1946
S. Walter Martin -- July 1, 1964 - July 14, 1965
Vernon Crawford -- June 15, 1979 - May 20, 1980

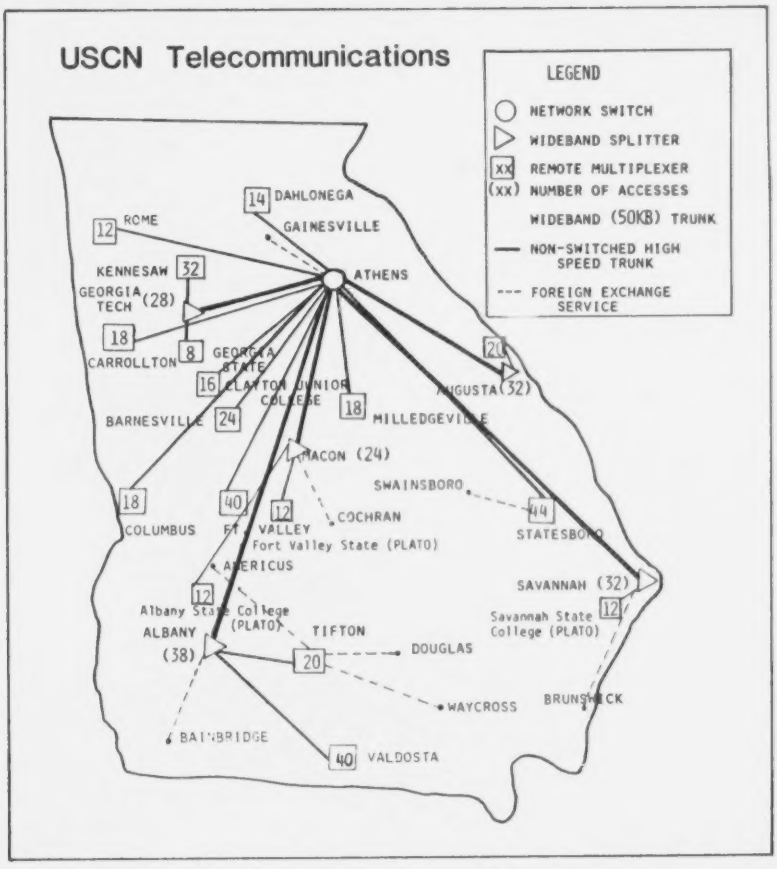
Officers of the Board



The University System Computer Network (USCN) functions as a consortium of the University System institutions, sharing computing resources, facilities, and expertise through a state-wide telecommunications network. Founded in 1970, the USCN is governed by an executive committee of elected representatives from each of the six geographical regions in the State. Administrative responsibility for the network resides with the Assistant Vice Chancellor-Computing Systems. Facilities management services for the Control Data mainframe computers which serve the entire netowrk, as well as the state-wide telecommunications services, are provided by the University of Georgia in Athens. The Network Services staff, also located in Athens, provides consulting and user assistance to the participating institutions.

Several large mainframe computers provide general computing services to the participating institutions, supplementing facilities available on the individual campuses. The Control Data CYBER 850 supports academic computing (instruction and research) and the CYBER 825 supports administrative applications operating in a distributed data processing environment. A dedicated PLATO system, operating on a CYBER 845 computer, provides computer-assigned instruction not only to System institutions but also to some public schools and private organizations throughout the State. The CYBER 845/CYBER 205 complex provides high performance "Class VI" computing via a vector processing architecture for advanced scientific research throughout the Southeast. Three university-level institutions, Georgia Institute of Technology, Georgia State University, and the University of Georgia, also make one or more of their large mainframe computers available as hosts on the telecommunications network. Services available from the University of Georgia, for example, include an IBM 3081 as well as the CYBERPLUS supercomputer.

The telecommunications network uses statistical time division multiplexing equipment (Halcyon) located throughout the State, connected through wideband (50kbs) dedicated telephone trunk lines to programmable data switches (Develcon) on the University of Georgia campus. Some public schools, local and county governments, and state government agencies also make use of the USCN computing facilities via the telecommunications network, as do cooperative extension offices, small business development centers, and other public service units throughout the State. Georgia Institute of Technology, in Atlanta, and the University of Georgia, Athens, are nodes on the national BITNET telecommunications network.

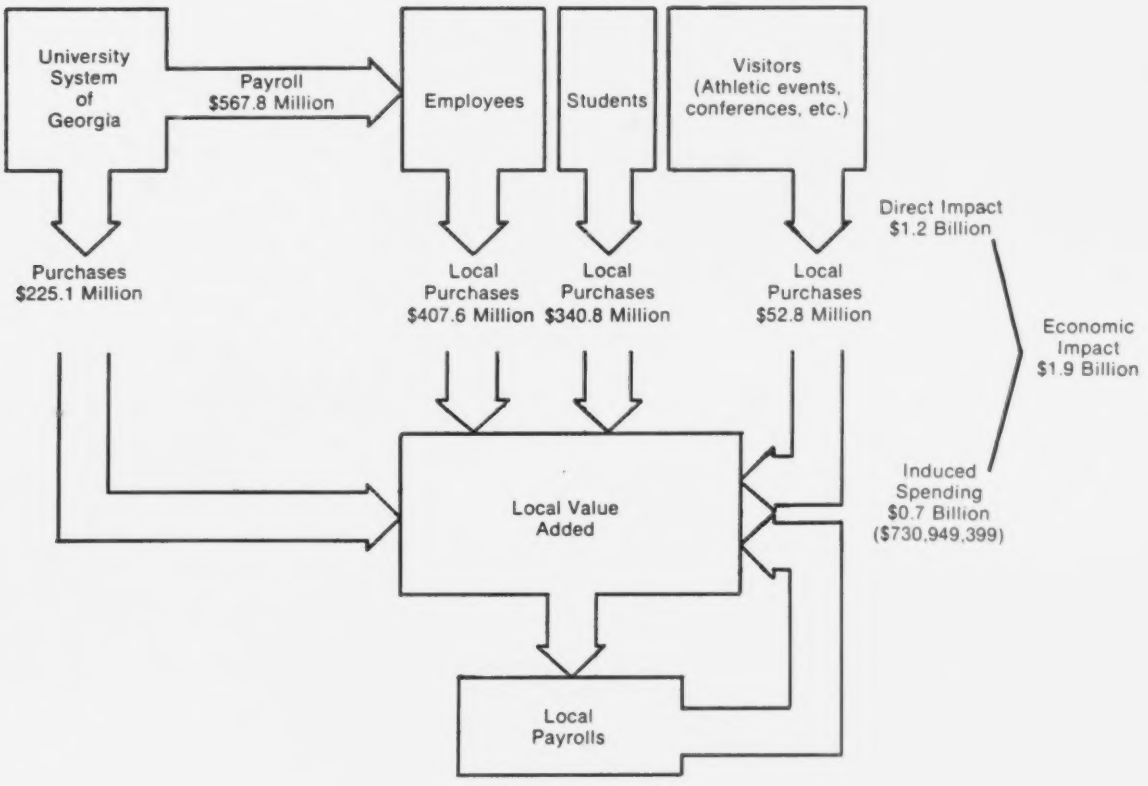
ECONOMIC IMPACT
1984



Conclusion:

- Each dollar of direct spending turns over several items in the Georgia economy resulting in the "Multiplier Effect."
- Economic impact of the University System on the State was $1.9 billion.
- State Appropriations amounted to $575.6 million in FY 1984.
- This represents a return of $3.33 on each state dollar invested in the University System.

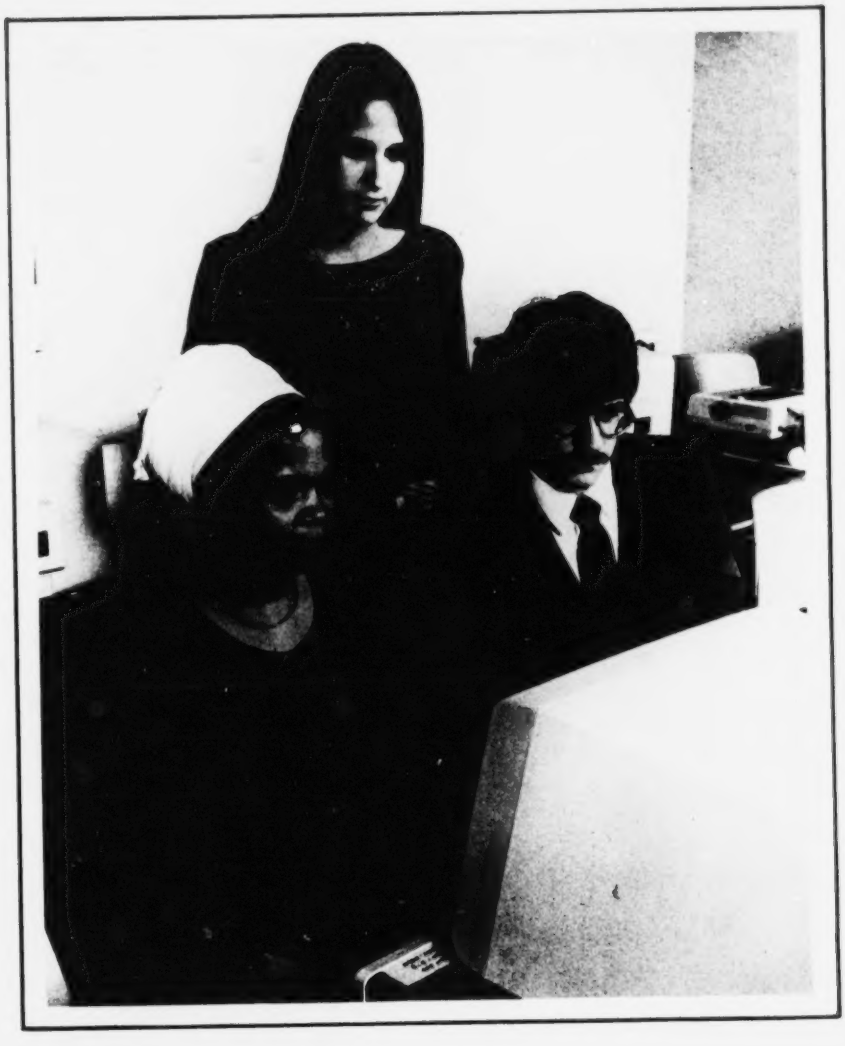
Students



HEADCOUNT ENROLLMENT
FALL 1976 – FALL 1985

HEADCOUNT enrollment represents an unduplicated count of all students who are enrolled in credit courses at a University System institution, regardless of course load. Therefore, it includes both full-time and part-time students.

Institution	1976	1977	1978	1979	1980	1981	1982	1983	1984	1985
Georgia Institute of Technology	9,496	10,113	10,688	11,245	11,261	11,158	11,396	10,912	10,958	11,078

EQUIVALENT FULL-TIME (EFT) ENROLLMENT
FALL 1976 – FALL 1985

EFT enrollment is the conversion of the number of all students enrolled full-time and part-time into an equivalent number of full-time students. It is calculated by dividing the total credit hours taken by all students during the quarter by 15, the load for a full-time student for a quarter.

1962	35,277	1989	132,400

* Original enrollment data were corrected beginning in 1970 to include other enrollment (in-service, independent study, extension, and evening) at the University of Georgia.

★ Between 1985 and 1989, total System enrollment is projected to decline 2.6%. This does not mean that all institutions will have declining enrollment. Institutions with attractive locations and programs should experience increased enrollments during the period.

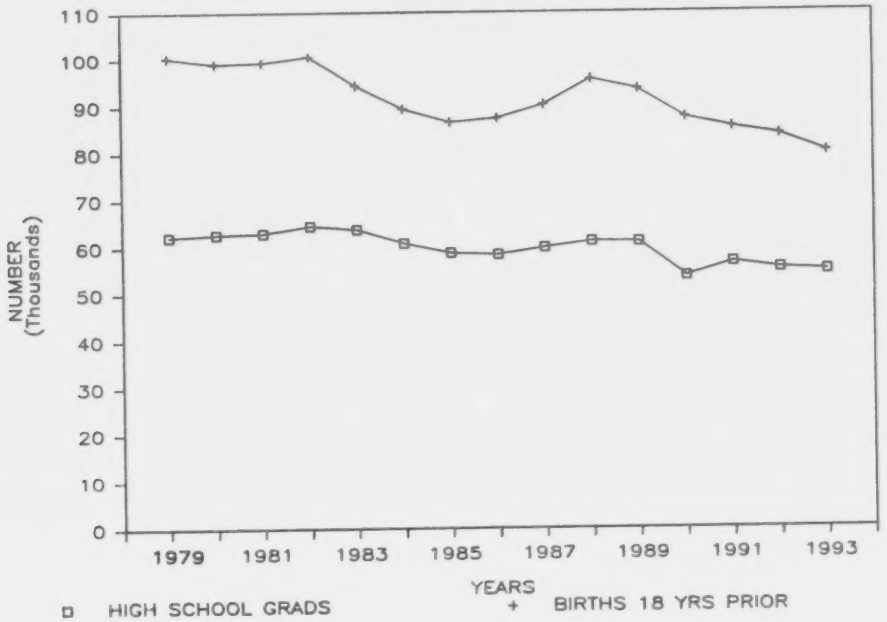
GEORGIA PUBLIC HIGH SCHOOL GRADUATES AND BIRTH RATES

A major determinant of University System enrollment is the size of the entering freshman class which is related to the pool of high school graduates in the same year. With decreasing birth rates from the 1960's and 1970's, the number of high school graduates began a projected ten-year decline in 1983. The percent decline in projected University System enrollment is not as great due to the anticipated increases in enrollment of non-traditional students and improved college participation rates and retention efforts.

Year	High School Graduates	Births (18 Years Previous)
1979	62,211	100,444
1980	62,708	99,047
1981	62,963	99,360
1982	64,489	100,581
1983	63,709	94,336
1984	60,718	89,376
1985	58,654	86,469
- -PROJECTED- -		
1986	58,269	87,322
1987	59,789	90,195
1988	61,038	95,584
1989	60,922	93,480
1990*	53,490	87,366
1991	56,510	85,285
1992	55,150	83,652
1993	54,608	79,951

* Decline due to State Board of Education policy change effective Fall 1978 (12 years prior to 1990) whereby all first graders were required to be 6 years old on or by September 1. Prior to that, the policy was on or by December 31.



★ Between 1985 and 1993:
- Birth rates (18 years prior) will decline 7.5%.
- Public high school graduates will decline 6.9%.

FIRST TIME ENTERING FRESHMAN ENROLLMENT
FALL 1976 – FALL 1985

The System's current enrollment as well as future enrollment is affected by the size of the entering freshman class. The following data represent all students who entered college for the first time in the specified Fall quarter as one of the following classifications: joint enrollment, regularly admitted freshmen, and freshmen required to enroll in one or more developmental studies courses. The data do not include transfer freshmen.

Institution	1976	1977	1978	1979	1980	1981	1982	1983	1984	1985

Minimum Admissions Requirements

The following minimum freshman admissions requirements have been approved by the Board of Regents:

a. Graduation from an accredited secondary school or a GED certificate which satisfies the minimum score requirements of the State of Georgia
b. Completion of the Scholastic Aptitude Test (SAT)

Students must have a minimum of a 1.80 high school grade point average (on a 4.0 scale and on "academic work" only), or a 250 verbal SAT score, or a 280 mathematics SAT score. Students scoring below 330 on the verbal SAT or below 330 on the mathematics SAT must be tested for entry into appropriate developmental studies courses (see Developmental Studies section elsewhere in this document). Satisfaction of these minimums does not guarantee admission to any University System institution since institutions may establish both higher and additional admissions requirements.

Source: Policy Manual

Joint Enrollment and Early Admission Programs

The purpose of the programs is to provide academically talented high school students with opportunities for acceleration of their formal academic programs. A joint enrollment student is one who is enrolled in courses for college credit while continuing in high school. An early admissions student is one who enrolls as a full-time college student following completion of the junior year in high school. Minimum admissions requirements are 1) a minimum combined Scholastic Aptitude Test score of 850, 2) a minimum high school grade point average of 3.0 in academic subjects, 3) written approval (joint enrollment) or written recommendation (early admission) of the high school principal, and 4) written consent of parent or guardian (if student is a minor). Institutions may establish higher admissions standards or additional admissions requirements for either or both programs. In Fall 1985, 413 students were enrolled through the program.

Source: Board Minutes, November 1984

Provisional Admissions

This admissions category was designed as an exception to the minimum admissions requirement in an attempt to attract non-traditional college age students into higher education. To be admitted under the category, the following stipulations apply: 1) graduated from an accredited high school or satisfied requirements for the General Education Development (GED) Equivalency Certificate, and 2) have at least eight years of post high school experience, and 3) not have previously attended college. Students may earn no more than 30 quarter hours in the classification and must then gain regular admission by meeting regular requirements or by maintaining a grade point average of 2.0 or higher in the 30 hours of degree credit work. The program is optional for System institutions.

Source: Policy Manual

Senior Citizen Admissions

Pursuant to a Georgia constitutional ammendment passed in 1976, Georgia residents, 62 years of age or older, may enroll as a regular or auditing student in degree credit work on a "space avaliable" basis without payment of fees, except for supplies and laboratory or shop fees. Students must meet all System and institution undergraduate (see "Minimum Admissions Requirements" above) or graduate school admission requirements and follow the same program as other degree-seeking students. The program does not apply to Dental, Medical, Veterinary, or Law Schools. In Fall 1985, 174 persons were enrolled through the program.

Definitions:
1) Developmental Studies includes only those students who are required to take one or more developmental studies (remedial) courses; these students may also be enrolled in degree credit courses in areas where remediation is not required.
2) Freshman includes joint enrollment (students who have met specified admission standards to be enrolled simultaneously in high school and college), regularly admitted freshmen, and provisionally admitted freshmen; students have earned between 0 and 44 college credit hours.
3) Sophomore includes students who have earned 45-89 college credit hours.
4) Junior includes students who have earned 90-134 college credit hours.
5) Senior includes students who have earned 135 or more college credit hours.
6) Graduate includes post baccalaureate and fully admitted students in master's, education specialist, and doctoral programs.
7) Professional includes medicine, dental medicine, veterinary medicine, law, pharmacy, and Board designated programs in forestry, social work, and journalism at the University of Georgia.
8) All Other includes non-degree seeking students, persons not fully admitted at the institution, transients, and auditors.

SYSTEM TOTAL	106,729	23,404	5,831	135,964

Note: The above data should be used with caution since it includes all students and their current intended major. The data do not reflect the enrollment of students who have actually applied and have been accepted into a program, which often does not occur until the second or third year. For instance, in the table 5,759 students have declared an intended major in nursing (undergraduate) whereas the total enrollment of students who have been accepted in undergraduate Nursing programs Systemwide is reported to be 3,182 in the document Health Professions Education Programs, 1984.

*Excludes Nursing which is reported separately
**Includes such programs as Home Economics, Communications, Interdisciplinary
***Includes Pharmacy, Social Work, Journalism and Forestry at the University of Georgia only

TRANSFERRED TO ANOTHER SYSTEM INSTITUTION

HOW TO READ THE TABLE: 1) Locate the column of the Sending Institution at the top of the page and the row of the Receiving Institution on the left side of the page. For example, VSC (Valdosta State College) received 112 transfer students from ABAC (Abraham Baldwin Agricultural College) and ABAC received 13 transfer students from VSC. 2) To determine how many students transferred from a System institution to another System institution, read the bottom line. For example, 302 students transferred from Georgia Tech to another System institution. Data are not available on numbers who transferred to a non-System Georgia institution or an out-of-state institution.

Note: 1) Composite score is derived by summing the SAT Verbal score (possible range = 200 - 800) and the SAT Math score (possible range = 200 - 800). The possible Composite score range is 400 - 1600.

2) Medical College of Georgia admits only a very limited number of freshmen, since most undergraduates are transfer students.

* Total number of freshmen included in the data anaylsis
** Total number of college bound high school seniors in Georgia who took the test in 1985

DEGREES CONFERRED BY DISCIPLINE AND LEVEL
SUMMER 1984 – SPRING 1985

The geographic distribution of University System institutions affords the citizens of Georgia a diversity of academic programs. The largest number of baccalaureate degrees (over one-half) are conferred in Business, Education, and Engineering/Engineering Technology. At the master's and doctorate levels, the largest numbers are conferred in Education.

Discipline	Certificate	Associate	Bachelor	Master's	Education Specialist	Doctorate	First Professional
Agriculture		114	338	97		30

BACHELOR'S DEGREES CONFERRED BY DISCIPLINE
FY1979 – FY1985

Since 1978, the greatest growth at the baccalaureate level has occurred in Business, Engineering and Computer Science. The increases have helped offset the decreases in Education and the Social Sciences.

MASTER'S DEGREES CONFERRED BY DISCIPLINE
FY1979 – FY1985

Education continues to be the predominant major at the master's level although the number has declined since 1978. Degrees conferred in Business and Engineering/Engineering Technology account for the next largest proportion and have increased steadily since 1978.

REGENTS TESTING PROGRAM

PURPOSE: The Regents Testing Program (RTP) was instituted in all System institutions to 1) provide System-wide information on the status of student competence in the areas of reading and writing and 2) provide a uniform means of identifying those students who fail to attain the minimum levels of competence in the areas of reading and writing. Passing the test became a requirement for graduation from undergraduate degree programs (associate and baccalaureate) in 1973.

The test is comprised of two parts, reading and essay, and is administered during a testing period at all System institutions. Each institution is responsible for its own test administration and arranges for supervisors and proctors. A test manual is provided. After the last test administration, all testing materials are returned to the RTP office for scoring.

SCORING: The reading part of the test is a 60-item, multiple choice test based on ten reading passages and five to eight questions about each passage. The questions are designed to assess vocabulary, comprehension, and analysis skills. The answers are machine scored and the raw score is converted to a standard score with a range of 01-99. The current cut-off score for the reading section is 61.

For the essay part, students have one hour in which to choose and write on one of the two topics that are given. The completed essays are then distributed by the RTP office among six centers in the State where raters from System institutions score them. Essays are identified by social security number only so raters do not know the identity of the student or the institution. Three independent raters score each essay on a 4-point scale (4-superior performance; 3-clearly passing performance; 2-barely passing performance; 1-substandard or failing performance). The final score is the rating on which at least two of the three raters agree or the middle rating if there is no agreement. An essay is given a failing grade only if at least two of the three raters assign a failing grade.

REMEDIATION: All students who have taken and have not passed both parts of the test during the quarter in which they will have earned 75 hours of degree credit must take non-degree credit courses in remedial reading and/or writing until they have passed both components of the test. Institutions may not delay initial testing beyond the student's having earned the sixtieth (60) hour of degree credit. If a student fails only one part of the test, he is required to repeat only that part. There is no limit on the number of times a student may take remediation or retake the test, although some institutions have policies whereby repeaters are allowed to retake the test only when quantifiable progress has been made.

PASSING RATES FOR FIRST-TIME EXAMINEES
1984-85

Note: Because institutions vary in their policies concerning the Regents Test, it is extermely difficult to use the following data to make comparisons among institutions.

(Note: Policy applies to undergraduate students only.)

CORE CURRICULUM

The institutions of the University System share a common general mission in providing a Core Curriculum for all entering freshmen. The purpose is to aid and facilitate the educational progress of students as they pursue baccalaureate degrees within and among the units of the University System. It is designed to constitute the freshman and sophomore years of study and assure the transfer student that Core Curriculum courses successfully completed at one University System institution, or a fractional part thereof, will be accepted at another University System unit and apply toward a baccalaureate degree. The Core also provides for the preservation of the maximum possible amount of institutional autonomy.

The Core Curriculum is composed of ninety quarter credit hours of study divided among four areas of which sixty hours are in general education and thirty in a major area of study.

Area	Quarter Credit Hours
I. Humanities	20
II. Mathematics and Natural Science	20
III. Social Sciences	20
IV. Major area of study	30
Total	90

The result has been that fewer transfer students lose credit and institutions, particularly junior colleges, are no longer placed in the difficult position of attempting to provide excessive curricular offerings to satisfy lower division requirements in various baccalaureate degree programs offered at all four-year institutions. Each institution has developed its Core Curriculum within the broad context of the above plan. The list is maintained in the Core Curriculum Handbook and is updated periodically as changes are recommended.

INTERNATIONAL INTERCULTURAL STUDIES PROGRAM (IISP)

The purpose of the program is to recommend to the Chancellor approval of any program with a foreign travel component. Its mission is to internationalize the outlook, curriculum, and campus of the 33 colleges and universitites in the System. It does so by providing opportunities for study abroad throughout the academic year (15 programs this year in the summer), exchange opportunities for both students and faculties, faculty development projects abroad, and development of joint research projects with foreign faculty. Other efforts are focused on assisting institutions with foreign student recruitment, creating area institutes (i.e., Far Eastern Studies, African Studies) and, generally, promoting a more significant understanding of global issues and culture. Up until Fall 1984, this program was called Studies Abroad.

CALENDAR OF ACADEMIC ACTIVITIES

Quarter System

All institutions in the System operate on a quarter system with the exception of the Law School at the University of Georgia which was granted permission by the Board to operate on a semester system for accreditation purposes.

Length of Quarter

The three regular quarters of the academic year (fall, winter, spring) cannot be less than eleven calendar weeks each, with allowances therein for registration, instruction, examinations, and reporting of grades to the registrars. A quarter normally includes ten full weeks of instruction (a minimum of 47 class days). A minimum of 500 minutes of instruction is required for each quarter credit hour awarded to the student.

The scheduling of summer quarter work may be flexible but with the stipulation that all summer quarter work be equivalent to that done in other quarters, with respect to instructional time.

Beginning and Ending Dates

The earliest beginning and latest ending dates are approved by the Chancellor and must be followed by all institutions.

Quarter		Earliest Beginning Date Allowable	Latest Ending Date Allowable	Number of Week Days
FY1986	Summer 1985	June 17, 1985	September 6, 1985	58

DEVELOPMENTAL STUDIES PROGRAM

The Board of Regents adopted a Systemwide policy providing for a Developmental Studies program beginning in Fall 1974 as a means of bringing the reading, English, and mathematical skills of marginally prepared students up to standard. Current Board policy mandates the following minimum standards for admission to Developmental Studies: all entering freshman who meet the minimal level requirements for admission but score below 330 on the Verbal Scholastic Aptitude Test (SAT) and/or below 330 on the Mathematics SAT. Such students are required to take the Reading and English and/or Mathematics portions of the Basic Skills Examination, an achievement test developed by the University System. Students who fail to make a satisfactory score on the test(s) are required to enroll in Developmental Studies course(s) related to their individual deficiencies. Students who do not complete the exit requirements for the required Developmental Studies area(s) after four attempts are excluded from the Developmental Studies program and are not eligible for re-entry for one academic year from dismissal. Students are not allowed more than four quarters in any one area. Students may accumulate up to 30 hours of degree credit while classified as a Developmental Studies student but may not take degree credit courses which require the content or skills of the Developmental Studies course(s) which has not been successfully completed. In both admissions and exit requirements, institutions may develop stricter standards. No degree credit may be earned in Developmental Studies courses, but institutional credit is awarded.

FALL ENROLLMENT

CAUTION ABOUT DATA: Because admissions standards and Developmental Studies program exit requirements vary among institutions, extreme care must be exercised in making comparisons between institutions. For instance, some institutions, particularly those with strong mathematics/science components, may establish higher admissions standards so that large numbers of students are required to enter Developmental Studies Math to strengthen their skills. Other institutions with a mission to educate marginally prepared students operate with lower admissions standards, and these institutions may have a smaller Developmental Studies enrollment. For these reasons, Development Studies enrollment may not be an accurate indicator of student quality.

The data below include all students who were required to take one or more Developmental Studies course(s). Many of these students were deficient in one or two of the three areas and thus were also taking degree credit work simultaneously.

Notes:
1) Total Investment represents book value and not replacement value.

2) Fluctuations in government document counts due to inconsistent method in counting documents at one university.

PRE-COLLEGE CURRICULUM

FOR REGULAR ADMISSION:

The following courses will be required of students graduating from high school in the spring of 1988 or later who plan to enroll in regular college programs leading to the baccalaureate degree in University System institutions:

COURSE (UNITS)	INSTRUCTIONAL EMPHASIS
English (4)	-- Grammar and usage -- Literature (American and World) -- Advanced composition skills
Science (3)	-- Physical Science -- At least two laboratory courses from Biology, Chemistry, Physics, or related areas of science
Mathematics (3)	-- Two courses in Algebra and one in Geometry
Social Science (3)	-- American History -- World History -- Economics and Government
Foreign Language (2)	-- Two courses in one language emphasizing speaking, listening, reading, and writing

FOR PROVISIONAL ADMISSION:

Institutions may maintain a "provisional admission" category for those entering students graduating from high school in the spring of 1988 through the spring of 1992 who do not meet the "regular admission" standards. These students will be required to complete specified courses upon admission to the institution.

Notes: 1) Institutions may choose not to have a provisional admission category.

2) Institutions may set higher standards than those specified above.

3) The policy will not apply to students pursuing one or two-year terminal (career) certificate or degree programs.

4) The curriculum has been approved by the Board of Regents and endorsed by the State Board of Education.

Faculty and Staff

FULL-TIME FACULTY BY INSTRUCTIONAL RANK
DECEMBER 1985

Corps of Instruction

Full-time professors, associate professors, assistant professors, instructors, and lecturers are considered the Corps of Instruction and must be approved by the Board of Regents prior to their initial appointment upon recommendation of the Chancellor and the president of the institution. Promotion to a higher rank must also be approved by the Board upon recommendation of the Chancellor and the president of the institution. The appointment of full-time lecturers is limited to universities and to individuals with exceptional talents.

TENURE STATUS OF FULL-TIME FACULTY
DECEMBER 1985

Tenure resides at the institutional level. Only assistant professors, associate professors, and professors who are normally employed full-time by an institution are eligible for tenure. Tenure is awarded upon recommendation by the president and approved by the Board of Regents. Tenure may be awarded at the end of a five year period, and the maximum time that may be served at the rank of assistant professor or above without the award of tenure is seven years. Administrators do not hold tenure in their administrative positions but may be awarded rank and tenure within a department. The Board has also established a non-tenure track policy for persons with faculty rank. There is no limit for years of service in this category, but persons cannot be considered for award of tenure or receive probationary credit toward tenure for years of service in this track.

Note: The "Faculty" total above (n=6,563) does not include administrators who hold Board approved academic rank as does the "Faculty" total in the tables on the previous pages (n=7,046).

DEFINITIONS:

Faculty - persons whose primary assignments are instruction, research, or public service and who hold academic rank; includes department chairpersons if their principal activity is instructional; includes persons on nine-month and twelve-month contracts.

Executive/Administrative/Managerial - persons whose assignments require primary responsibility in management of the institution; includes department chairpersons if their principal activity is administrative.

Professional Non-Faculty - persons with specialized professional training who cannot be classified in any of the other classifications (i.e., librarians, lawyers, physicians).

Secretarial Clerical - persons such as secretaries, bookkeepers, sales clerks, and data entry clerks.

Technical Paraprofessional - persons with technical skills acquired through experience or a technical degree (i.e., computer programmers, draftsmen).

Skilled Crafts - persons with special manual skills (i.e., mechanics, electricians, machinists, carpenters).

Service/Maintenance - persons with limited skills (i.e., food service and cleaning workers, drivers, laborers, and groundskeepers). Number of persons employed in this classification has declined in recent years since a number of institutions are now contracting with an outside agency for these services.

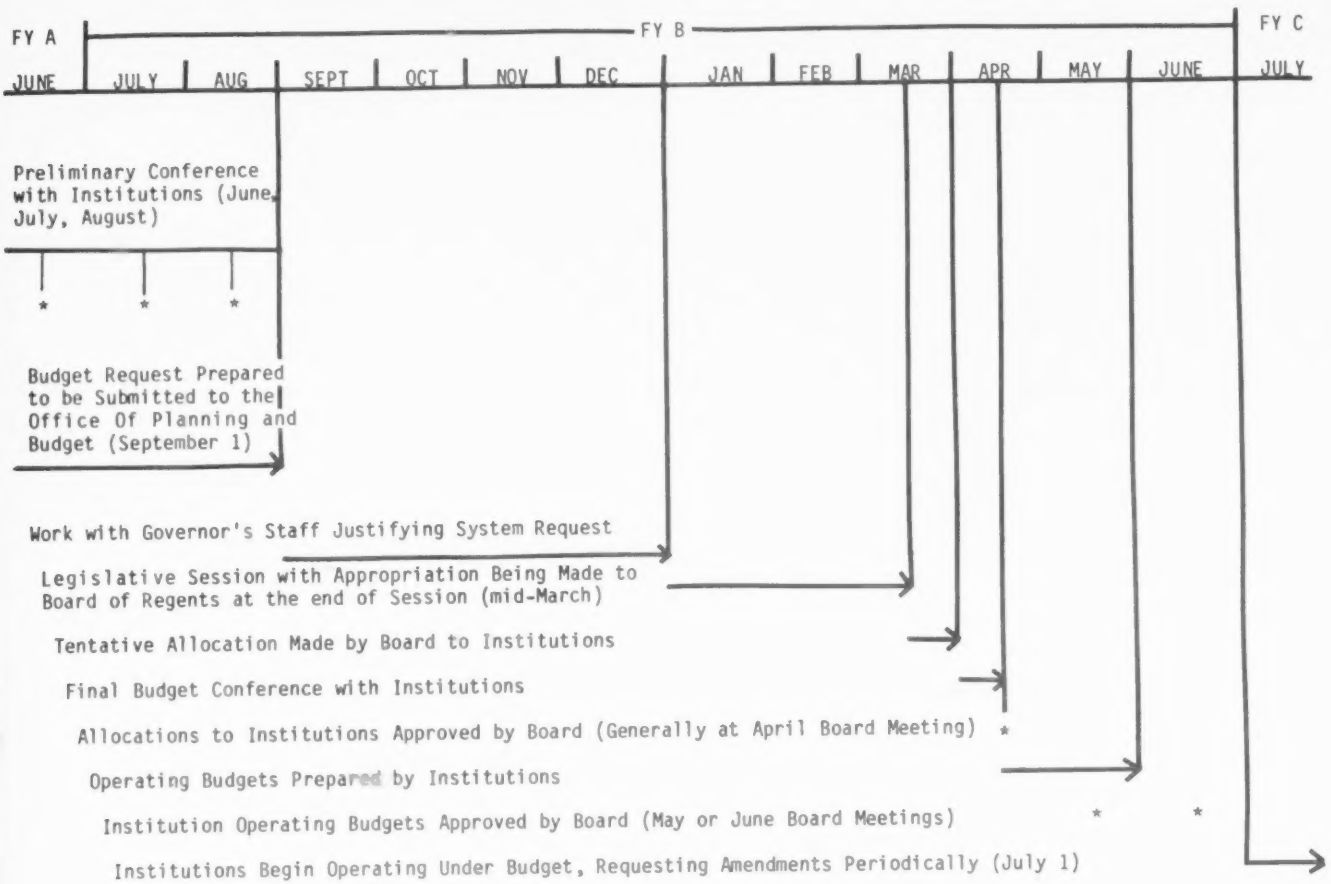
BUDGET CYCLE

The budget cycle of the University System is continuous since amendments are carried to the Board at each monthly meeting to reflect the current status of each institution. The development of a budget for FY C is illustrated in the following schematic.



FY A
FY B
FY C
JUNE
JULY
AUG
SEPT
OCT
NOV
DEC
JAN
FEB
MAR
APR
MAY
JUNE
JULY
Preliminary Conference with Institutions (June, July, August)
Budget Request Prepared to be Submitted to the Office Of Planning and Budget (September 1)
Work with Governor's Staff Justifying System Request
Legislative Session with Appropriation Being Made to Board of Regents at the end of Session (mid-March)
Tentative Allocation Made by Board to Institutions
Final Budget Conference with Institutions
Allocations to Institutions Approved by Board (Generally at April Board Meeting)
Operating Budgets Prepared by Institutions
Institution Operating Budgets Approved by Board (May or June Board Meetings)
Institutions Begin Operating Under Budget, Requesting Amendments Periodically (July 1)

FUNDING FORMULA

The University System operates under a formula funding system developed in 1982 and implemented in the FY1984 budget request. The formula serves as a basis for requesting funding from the legislature only and is not used to allocate money to the various institutions.

I. INSTRUCTION and RESEARCH - the formula for Instruction is based on quarter credit hours generated in three instructional levels (lower, upper, and graduate/professional) and three broad program groups, plus special program groups for developmental studies and medicine.

Group 1 - Law, Letters, Library Science, Psychology, and Social Sciences.

Group 2 - Area Studies, Business, Communications, Education, Home Economics, Mathematics, Public Affairs, and Interdisciplinary Studies.

Group 3 Agriculture, Architecture, Biological Sciences, Computer Science, Engineering, Fine and Applied Arts, Foreign Languages, Health Professions, Physical Sciences, and Technologies.

Group 4 - Remedial/Developmental Programs.

Group 5 - Medicine, Dentistry, Veterinary Medicine.

Research funding is based on an amount equivalent to graduate instruction.

II. PUBLIC SERVICE - a basic amount is funded for each institution to support a director and office expenses. Separately organized institutes are specially funded. Continuing Education instruction is based on the production of continuing education units.

III. ACADEMIC SUPPORT - funding is calculated as a percentage of instruction, research, and public service costs.

IV. STUDENT SERVICES AND INSTRUCTIONAL SUPPORT - funding is calculated as a percentage of instruction, research, and public service costs.

V. OPERATION AND MAINTENANCE OF PLANT - funding for regular operation is on the basis of X dollars per square foot (gross). Major Repairs and Rehabilitation are recommended for funding at three-fourths of one percent of the current replacement value. Currently, it is funded at one-third of one percent of the current replacement value.

QUALITY IMPROVEMENT FUND - this fund is intended to be an additional budget item not included in the above and is designated as one percent of the total budget. Some of the intended uses of the fund are purchasing state of the art equipment for classrooms and laboratories, strengthening library collections, creating professional development programs, and establishing special faculty chairs.

The ultimate goal is full-funding of the formula.

STUDENT FEES

Fees are classified as either mandatory or elective. Mandatory fees include 1) fees mandated by the Board for all University System students, such as matriculation fees and non-resident tuition, and 2) fees mandated by the institution and approved by the Board such as student activity fees, athletic fees, health fees, and transportation fees. Elective fees are established by the institution, approved by the Chancellor, and paid by the students who elect and/or benefit from the specific service such as student housing, food service, and special class fees.

MATRICULATION FEES AND NON-RESIDENT TUITION
FY1980 AND FY1986

In accordance with recommendations of the Study Committee on Public Higher Education Finance, the Board authorized a 15 percent increase in tuition and matriculation fees in FY1983, FY1984 and FY1985 to bring the student's contribution up to 25 percent of the total General Operations revenue in the Resident Instruction budget. A 12.5 percent increase was required for FY1986.

TYPICAL COST TO ATTEND A UNIVERSITY SYSTEM INSTITUTION
ACADEMIC YEAR 1986

GEORGIA RESIDENT ONLY

The following data were prepared using the mandatory fee data from the two previous fee tables plus estimated elective charges. The typical cost for each type of institution does not include non-resident tuition for out-of-state or out-of-country students, costs for books and supplies, transportation for commuting students, organization dues, and personal expenses (i.e., clothing, allowance).

I. UNIVERSITY - RESIDENTIAL

Due to the varying fee structure at the four universities, there is no typical cost for all university programs. However, the following estimate for Georgia Tech would also approximate a typical cost for a full-time residential student enrolled in a non-professional program at the University of Georgia.

GEORGIA INSTITUTE OF TECHNOLOGY	ACADEMIC YEAR COST (Fall, Winter, Spring Quarter)
Matriculation (Full-Time Student)	$1,272.00
Other Mandatory Fees:	
Student Activity	90.00
Student Athletic	75.00
Student Health	123.00
Transportation	27.00
Estimated Elective Charges:	
Housing (Double Occupancy)	1,257.00
Food Service (21 meals per week)	1,350.00
TOTAL ESTIMATED COST	$4,194.00

II. SENIOR COLLEGE - RESIDENTIAL

Matriculation (Full-Time Student)	$ 960.00
Other Mandatory Fees:	
Student Activity and/or Athletic	144.00
Student Health	75.00
Estimated Elective Charges:	
Housing (Double Occupancy)	855.00
Food Service (21 meals per week)	1,080.00
TOTAL ESTIMATED COST	$3,114.00 *

* For a Non-Residential Senior College, deduct $855.00 for housing, $1,080.00 for food service and $75.00 for student health. The resulting figure is $1,104.00.

III. JUNIOR COLLEGE - RESIDENTIAL

Matriculation (Full-Time Student)	$ 726.00
Other Mandatory Fees:	
Student Activity/Athletic	84.00
Student Health	60.00
Estimated Elective Charges:	
Housing (Double Occupancy)	765.00
Food Service (21 meals per week)	1,072.50
TOTAL ESTIMATED COST	$2,707.50 *

* For a Non-Residential Junior College, deduct $765.00 for housing, $1,072.50 for food service, $60.00 for health, and $84.00 for student activity/athletic fees. The resulting figure is $726.00.

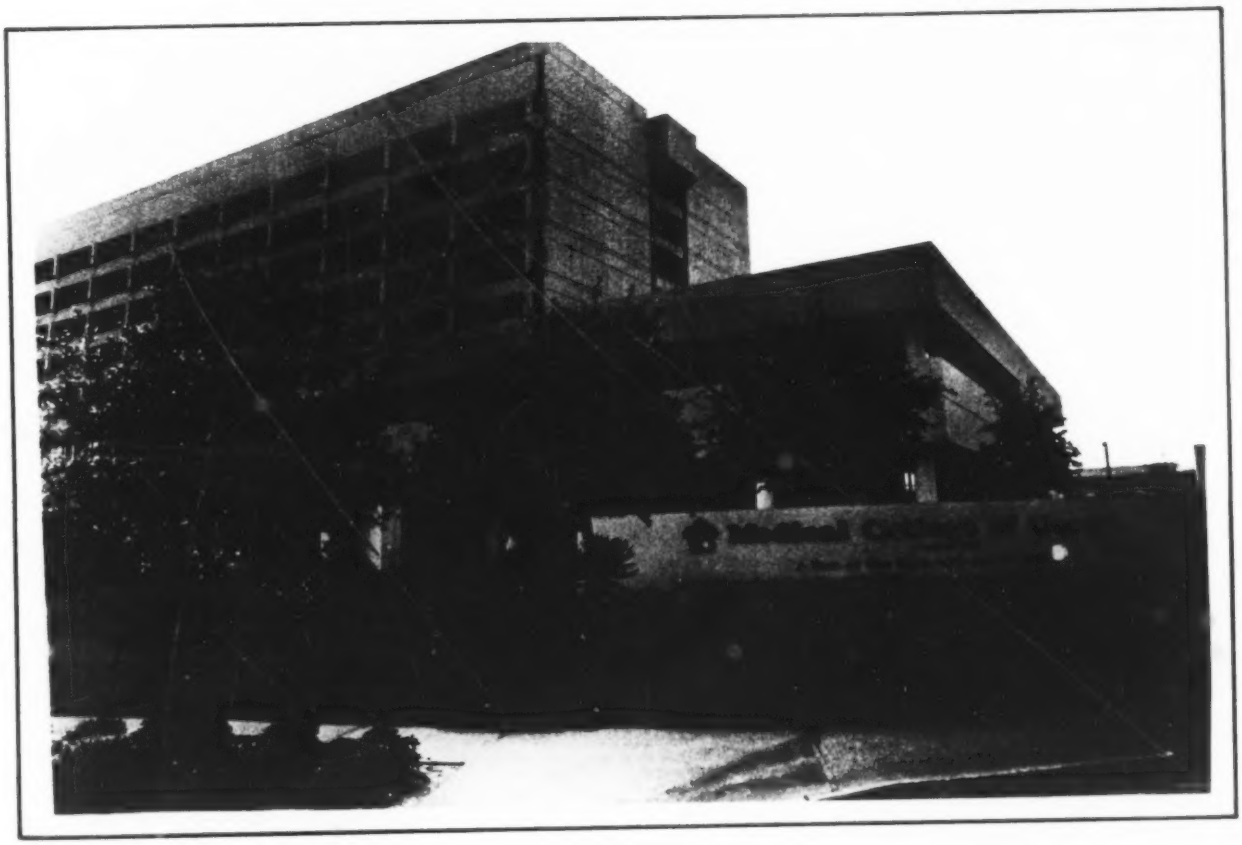
Facilities



FACILITIES

Among the primary responsibilities of the Board of Regents is that of providing adequate facilities at the 33 institutions of the University System. The Office of the Vice Chancellor for Facilities administers Board policy in this area. Title to all properties is vested in the Board of Regents. The Board may hold, purchase, lease, sell, convey, or otherwise dispose of property if deemed appropriate for efficient administration of the University System.

The Office of Facilities, the Chancellor, and the Board of Regents, utilizing the top-ranked new building requests from each of the 33 institutions, develop the priority list of new buildings to be included in the University System budget request submitted to the Governor each September. The institutions' lists of major repair and rehabilitation projects are used by the Office of Facilities in administering the annual appropriation to the Major Repair/Rehabilitation Fund - an element of the Regents funding formula.

The majority of facilities constructed currently are financed with bond funds issued by the Georgia State Financing and Investment Commission (GSFIC). Additional funds for construction may be obtained from other sources (e.g. private).

MAJOR REPAIR/REHABILITATION FUND
FY1984 - FY1985

In accordance with the recommendations of the Study Committee on Public Higher Education Finance (1982), the day to day operation of the physical plant continues to be funded on the established dollars per square foot funding approach. However, to cover the non-formula component for major repairs and maintenance, the Committee recommended that the appropriation be set at three-fourths of one percent (3/4 of 1%) of the current replacement value of all System buildings. This recommendation became effective in FY1984 but to date the actual percent is one-third of one percent (1/3 of 1%) of the current replacement value. Prior to that time, the System had been receiving a constant $2.5 million annually which failed to recognize inflation or increased need.

BUDGET

FY1984	$5,461,000
FY1985	$5,897,730

Allocations have been used for such projects as reroofing or roof replacement, repairing/replacing boilers and chillers, upgrading electrical systems, providing handicapped access, and bringing buildings up to fire code specifications.

SYSTEM TOTAL	13,840,409	2,254,420	6,939,538	23,034,367	12,808,164	**35,864,580(Sq. Ft.)**

* Total includes off-campus facilities (e.g. experiment stations); also includes space with coding errors that is not included in the categories.

Notes: Classification indicates how the various rooms within a building were actually used (e.g., faculty office space) as opposed to the major function of the building (e.g., residence hall facility, instructional classroom facility).

Academic - instruction (classrooms, laboratories, faculty offices), research, public service, cooperative extension, libraries, computing support, ancillary support (teaching hospitals)

Administrative - executive management, administrative services, fiscal operations, physical plant operations, financial aid, community relations

Faculty and Student Support - faculty and staff services (faculty clubs, lounges, cafeterias), student support (housing, health services, student centers, cafeterias)

Other - unassigned space (capable and incapable of use); building service (closets, stairwells); independent operations (rental property for commercial uses and outside agencies); and parking garages at Georgia State (412,517 sq. ft.) and Medical College of Georgia (298,388 sq. ft.).

Notes: 1) Housing refers to college-owned or college-controlled housing; includes single student, fraternity/sorority, and married student housing units.

2) Capacity refers to all spaces created for student housing and reflects normal occupancy. Capacity does not change unless a new housing facility is built or an existing facility is renovated into student housing or a housing facility is converted to other use. A housing facility which is closed due to lack of demand is included until the building is converted to other use.

3) Capacity decreased substantially in Fall 1985 at the University of Georgia due to a reporting change. Prior to that period, all sorority and fraternity capacity was counted although the university owns and/or controls only a portion (see definition above). The current data reflect the definition.

SYSTEM TOTAL	69%	44%	25%	58%

Notes: 1) The above hours were selected to demonstrate peak time usage rates for general classrooms only. Lower afternoon rates reflect several scheduling patterns:

A) Non-traditional commuter institutions often have difficulty in scheduling early to mid-afternoon classes because students, many of whom are employed full-time, cannot attend them.

B) Institutions often schedule lectures in general classrooms for the morning followed by laboratories in the afternoon; therefore, general classrooms are in less demand in the afternoon, whereas laboratories (not shown above) are in greater demand.

2) A 100% usage rate is difficult to obtain because some classes are cancelled due to low enrollment, and the reserved space is not available in time to establish other class usage.

3) Data do not include utilization for continuing education (non-credit) courses.

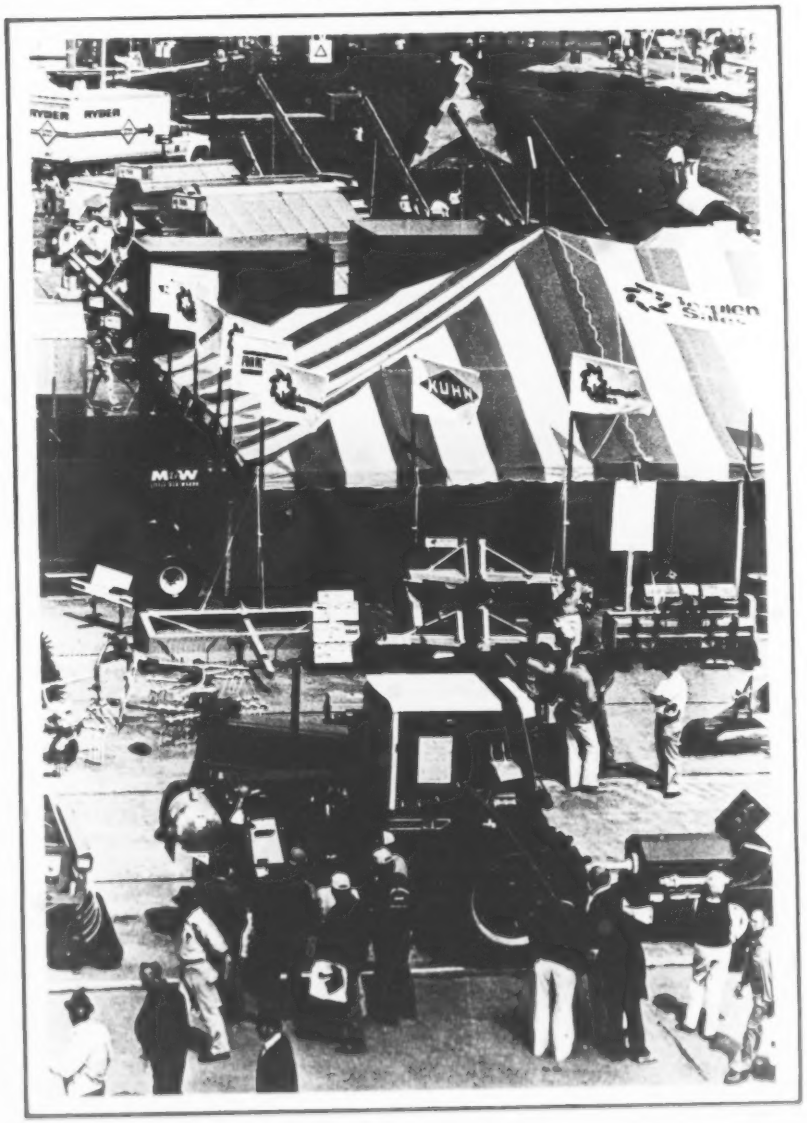
Research and Service Activities



RESEARCH, PUBLIC SERVICE, AND CONTINUING EDUCATION

RESEARCH

The research mission in the University System is concentrated primarily in the four universities. These research activities serve to expand the existing body of knowledge, provide learning opportunities for graduate students, and find solutions for problems. A substantial portion of the research is conducted at the following special research centers:

- Agricultural Experiment Station (University of Georgia) - composed of three main stations at Griffin, Tifton, and Athens and five branch stations at Blairsville, Calhoun, Eatonton, Midville, and Plains; and extension-research centers at Attapulgus and Savannah
- Georgia Tech Research Institute (formerly Engineering Experiment Station, Georgia Institute of Technology) - headquartered on the Georgia Tech campus with leased facilities at Dobbins Air Force Base and field offices in Albany, Augusta, Brunswick, Carrollton, Columbus, Douglas, Dublin, Gainesville, Macon, Madison, Rome, and Savannah; research is also being conducted at various sponsor locations throughout the nation and the world
- Marine Sciences Program (University of Georgia) - composed of the Marine Institute at Sapelo Island and the Marine Resources Extension Center at the Skidaway Institute of Oceanography on Skidaway Island; also manages the Georgia Sea Grant program
- Veterinary Medical Experiment Station (University of Georgia) - composed of research facilities within the College of Veterinary Medicine and the Poultry Disease Research Center, both at Athens, and the Veterinary Diagnostic Assistance Laboratories at Athens and Tifton

PUBLIC SERVICE AND CONTINUING EDUCATION

As part of the mission of the University System, public service and continuing education act as an interface between the 33 institutions and the communities which they serve. Such activities are an extension of the traditional on-campus learning process and have been established to improve the welfare of Georgia's citizens and serve business, industry, government, and professional organizations.

The public service/continuing education component consists of the following:

- Instructional services - offering primarily non-degree credit work designed for the purpose of upgrading skills or personal development
- Applied research - finding pragmatic solutions for identified problems
- Consultation - providing expertise for solving problems
- Technical assistance - providing support for completing a task

Public service activities at University System institutions are very diverse. To help facilitate these activities, the following special public service organizations have been established:

- Cooperative Extension Service (University of Georgia) - conducts agricultural, home economics, and youth development programs throughout the State
- Engineering Extension Division (Georgia Institute of Technology) - provides industrial education programs for industries in the State
- Rural Development Center (Tifton - unit of the Cooperative Extension Service) - assists Georgia's rural citizens and communities in achieving maximum social and economic development
- Urban Life Center (Georgia State University) - seeks solutions to urban problems through instruction, research, and service

INSTITUTES AND CENTERS

The university level institutions provide the State with a network of institutes and centers which perform research and/or public service activities.

Georgia Institute of Technology

- Bioengineering Center
- Computational Mechanics Center
- Environmental Resources Center
- Fracture and Fatigue Research Lab
- Georgia Mining and Mineral Resources Institute
- Georgia Productivity Center (industrial)
- Georgia Tech Microelectronics Research Center
- Health Systems Research Center
- Nuclear Research Center
- Radiological Protection Center
- Rehabilitation Technology Center (disabled persons)
- Technology Policy and Assessment Center
- Materials Handling Research Center
- Communications Research Center
- Center for Excellence in Rotary Wing Aircraft Technology
- Center for Architectural Conservation
- Research Center for Biotechnology
- Fusion Research Center
- Georgia Tech Research Institute (seven major research labs)
  - Economic Development Laboratory
  - Electromagnetics Laboratory
  - Electronics and Computer Systems Laboratory
  - Energy and Material Sciences Laboratory
  - Radar and Instrumentation Laboratory
  - Systems and Techniques Laboratory
  - Systems Engineering Laboratory

RESEARCH AND DEVELOPMENT (R & D) AT GEORGIA INSTITUTE OF TECHNOLOGY

According to the latest National Science Foundation data, Georgia Institute of Technology ranks first in the nation among all public universities for engineering R & D expenditures and for industry-supported R & D. Among all universities, both public and private, Georgia Tech's R & D expenditures now rank:

- First in Electrical Engineering
- First in Civil Engineering
- Fourth in Mechanical Engineering
- Sixth in Computer Science
- Eighth in Aerospace/Astronautical Engineering

ACTIVITIES OF THE SMALL BUSINESS DEVELOPMENT CENTER (SBDC)

The Small Business Development Center operates as a network throughout the State to provide one-on-one counseling and continuing education to small business. The State Office is housed at the University of Georgia with district offices at the following locations:

University of Georgia	Columbus College	Savannah State College	Brunswick Junior College*
Georgia State University	Georgia Southern College	Valdosta State College	Clayton Junior College
Augusta College	Kennesaw College	Albany Junior College	Floyd Junior College
			Macon Junior College*

*Also serves as regional office

Between FY1981 and FY1985, clients served increased from 3,100 to 11,009. Continuing education programs increased in number from 228 to 774; the number of participants in these programs increased from 6,421 to 17,656.

Source: Small Business Development Center State Office

INTERNATIONAL BUSINESS COUNCIL
(Formerly Georgia World Congress Institute)

The International Business Council has the mission to facilitate international business in Georgia and the Southeast. Part of Georgia State University's College of Business Administration, the Council is responsible for assisting business and industry through conferences, seminars, and workshops in diverse topics such as export/import regulations and international currencies. It also conducts executive leadership training programs such as the International Business Fellows Program for business leaders from throughout the South. The 30 participants in 1985 raised the total number of fellows to over 150. The Council provides trade assistance programs including counseling services. Forty-four (44) firms received in-depth trade counseling services in 1985.

EMINENT SCHOLARS ENDOWMENT TRUST FUND

Pursuant to House Bill 919 which was adopted and signed into law in 1985, the Eminent Scholars Endowment Trust Fund was created to be used exclusively to endow academic chairs in an effort to attract eminent scholars to University System institutions. A total sum of not less than $1,000,000 is required to endow a chair under the program.

The Fund was allocated $500,000 in the System's FY1986 budget and represents $250,000 for Georgia Institute of Technology to establish the Eminent Scholars Chair in Microelectronics and $250,000 for the University of Georgia to establish the Eminent Scholars Chair in Biotechnology. In FY1986 Foundations at the two participating institutions were required to contribute 75 percent of the amount with the Fund contributing 25 percent. Both institutions have matched the State's contribution with a $750,000 donation from each. The FY1987 budget presented by Governor Joe Frank Harris includes a request for an additional $500,000 to endow a chair at the Medical College of Georgia and another at Georgia State University.

SERVICES PROVIDED BY MEDICAL COLLEGE OF GEORGIA HOSPITAL

The Medical College of Georgia Hospital, located in Augusta, is the only state teaching hospital in Georgia. It serves the five schools at the Medical College: Allied Health Sciences, Dentistry, Graduate Studies, Medicine, and Nursing. Among the special services provided to the State's citizenry are a comprehensive pediatric program, kidney transplant surgery, and an epilepsy diagnostic and surgery program. There are numerious outpatient clinics which served more than **200,000 outpatients** in FY1985.

GEORGIA
NUMBER OF INPATIENTS DISCHARGED
JULY 1, 1984 - JUNE 30, 1985

The 540-bed hospital served more than **17,000 inpatients** in 1984-85, with patients coming from all 159 counties.

Georgia Inpatients	17,020
Reidsville Prison	7
Total Inpatients from the State of Georgia	17,027*

*This does not include 117 inpatients without county or state identification. Includes newborns.

RESEARCH AND SERVICE ACTIVITIES IN VETERINARY MEDICINE

The research and service mission of the College of Veterinary Medicine, the Veterinary Medical Experiment Station (VMES), and the Poultry Disease Research Center at the University of Georgia, is to coordinate and conduct research on animal disease problems of present and potential concern to Georgia's valuable livestock and poultry industries. The College carries out its public service mission through such activities as providing primary patient care for privately owned animals at the teaching hospital, offering referral service for veterinarians and their clients, providing opportunities for continuing education for veterinarians and livestock and pet owners, and providing diagnostic services. The College also cooperates with Abraham Baldwin Agricultural College and Fort Valley State College in providing "hands on" training for their students in the Animal Health Technician Training Program.

A primary service resource is the Veterinary Diagnostic Laboratories located in Athens and Tifton. Funded by the Georgia Department of Agriculture but operated by the College, the laboratories have the responsibility to investigate diseases affecting livestock, companion animals, and wild life. For example, the laboratories played a major role in the control and eventual eradication of hog cholera from the State. In 1985, the laboratories served animal owners and veterinarians in each of the 159 counties in Georgia. The laboratories received 45,000 requests for assistance.

GROWTH OF VETERINARY DIAGNOSTIC LABORATORIES
FY1950 - FY1985

CONTINUING EDUCATION

Regents policy mandates that each of the 33 institutions shall offer a variety of conferences, institutes, short courses, workshops, seminars, and training programs. The principal unit awarded for participation in these non-degree credit activities is the Continuing Education Unit (C.E.U.), which is defined as ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction. The rapid growth that has occurred in this area is displayed below:

CONTINUING EDUCATION ACTIVITIES
1974-75 - 1984-85

12-Month Period*	No. of Programs	12-Month Period*	No. of Programs

Publications

UNIVERSITY SYSTEM OF GEORGIA PUBLICATIONS

The following publications are referenced in this document and should be consulted if additional information is needed:

GENERAL

Annual Report (annual). A summary of major University Ststem activities during the fiscal year including data on students, faculty, curriculum, degrees, finances, physical plant, and libraries.

System Summary (monthly). Newsletter describing activities of the Board and the Regents Central Office.

The Policy Manual (second edition, 1982; updated continuously). Codified manual of official Board-approved policies.

PLANNING

The Eighties and Beyond: A Commitment to Excellence (1983). A report of a statewide needs assessment for public higher education which addresses the more pressing issues facing the System and contains recommendations designed to serve as a plan for responsible action.

College Participation Rates and Their Determinants (1983). A study of participation rates for Georgia and the nation, with recommendations for improving the rate for Georgia.

Toward Quality Postsecondary Edcuation for Deaf Georgians (1985). Assessment of need for educational opportunities for deaf citizens.

University System of Georgia Information Digest, 1983-84 (1984). Compendium of facts and statistical data about the System and the 33 institutions.

ACADEMIC AFFAIRS

Program Inventory/Listing of Degrees and Majors Authorized (updated monthly). A comprehensive listing by institution of all Board-approved offerings with assigned Classification of Instructional Program (CIP) codes.

Analysis of Degrees Conferred (annual). Trends in total degrees conferred by level and discipline.

Statewide Assessment of Nursing Education (1981). Summary of needs, goals, and recommendations for public nursing education programs in the State.

A Guide to Undergraduate Programs (annual). Brochure prepared for distribution to high school counselors containing a matrix of programs offered by each System institution.

Preparing for College: Essential Courses and Skills (1985). A description of the pre-college curriculum to be effective Fall 1988 as a requirement for regular admission to non-technical programs at institutions in the University System.

The Economic Impact of the University System of Georgia on the Economy of the State of Georgia (1985). Identifies the impact of the 33 institutions on the economy of the State in FY1984.

Core Curriculum Handbook (1981, udpated as needed). Description of the common Core Curriculum followed at all System institutions. Describes the four areas that compose the 90 hour core and contains an inventory of all courses which meet the core at each institution.

Health Professions Education Programs (annual). Inventory of programs by institution, fall enrollment in each, total student capacity, and fiscal year graduates.

Opportunities at Predominantly Black Colleges (1985). Recruitment brochure designed to attract white students to Predominantly Black Institutions.

Opportunities for Minority Students (1985). Recruitment brochure designed to attract black students to Predominantly White Institutions

Report from Information Task Force for Computer Literacy (1985). Task force report on how computers can be used as tools within University System institutions.

UNIVERSITY SYSTEM OF GEORGIA PUBLICATIONS
(Continued)

ENROLLMENT

Quarterly Enrollment Report (quarterly). Report of headcount and equivalent full-time enrollment, demographics of students, and enrollment by class by institution.

Enrollment and Quarter Credit Hour Projections (updated annually). Projections for a five-year period.

Analysis of Foreign Student Enrollment (updated each fall quarter). Enrollment by country and institution.

STUDENTS

Normative Data for the Freshman Class (annual). Description of entering freshmen in terms of SAT scores, high school average, and freshman grade point average by institution. Equations for predicting average grades for future freshmen also provided.

Transfer Student Report (annual). Report of students transferring to and from University System institutions including numbers and grade point averages.

High School Reports (annual). A service provided by the System whereby all high school principals in the State are notified of the academic progress of their graduates at the end of their first year at a System institution.

Student Financial Aid Report (annual). Dollars awarded, number of awards, and unduplicated recipients for various aid categories by institution.

FISCAL AFFAIRS

Formula for Excellence: Financing Georgia's University System in the 1980's (1982). Final report of the Study Committee on Public Higher Education Finance. Describes current funding system with recommendations concerning tuition policies, quality improvement, budget lapse, and indirect cost recovery.

University System Budget (prepared for each fiscal year of operation). Summary of budget allocations for each teaching institution and activities other than teaching.

Annual Financial Report (prepared at the end of each fiscal year of operations). Presents the financial statement for each unit and a consolidated statement for the entire System.

FACILITIES

Quarterly Housing Report (quarterly). Summary of housing capacity and occupancy rate by type of housing and institution.

Space Utilization Survey Reports (annual, fall quarter). Utilization of classrooms, lecture rooms, and laboratories for units of time by institution.

Building and Room Inventories (updated each fall quarter). Inventory of buildings including year of construction, latest renovation, condition status, ownership, capital investment, and gross square feet, and an inventory of rooms including square feet, use, and student stations.

Building Project Procedure (revised as needed). Material prepared to assist architects and institutions in following procedure for building projects constructed in the University System of Georgia.

PUBLIC SERVICE/CONTINUING EDUCATION

Utilization of the Continuing Education Unit (C.E.U.) Within the University System of Georgia (1983). Policy manual for conducting and reporting C.E.U. activities in the System.

Summary Report of C.E.U. Activities (annual). Annual statistical summary of programs and participants by classification of programs and institution.

Cooperative Programs (annual). Listing of continuing education courses offered by title and name of cooperating institution.

Short Courses, Conferences, Workshops, Seminars (annual). Listing of planned continuing education activities offered by an institution by title and date to be offered.

INFORMATION SYSTEMS

Annual Summary Regents Consolidated Reporting System (annual). Summary of courses, quarter credit hour production, average section size, and room utilization.

Faculty, Student, Curriculum Data Element Dictionary (1981, updated periodically). Dictionary containing standardized definitions for reporting purposes in the University System.
